

REVIEW QUESTIONS

Human Origins and Intelligent Design

Lesson 28

4/11/21

Take some time to think through the things we talked about in our last lesson and review your notes. Then briefly answer the review questions below.

1. What are two important Christian doctrines that are impacted by the contemporary debate about human origins?
2. What are two prominent claims made by evolutionists regarding human origins?
3. Human descent from the great apes rests on an assumption of Neo-Darwinian. Why is this problematic?
4. What are some of the things which evolutionists claim are evidence for human evolution from the great apes?
5. What are the three ways in which the science of human origins are fragmented?
6. What is wrong with the evolutionist's assumption that similarity of form or genetic makeup necessarily reflect common ancestry?
7. What are some of the remarkable ways in which humans are unique compared to chimpanzees or other animals?
8. What is the difference between Intelligent Design and the Design Argument?
9. How do we detect design?
10. What was the most helpful thing you learned in this lesson, or was perhaps particularly new or interesting to you?
